

WATER LANE WORKSHOPS

Learn how to create your own beautiful Lino cut prints

This exciting one day course set in our characterful Cotswold workshop is an opportunity to learn how to create beautiful Lino prints onto cards and fabric.

Lizzie Mabley is a successful artist from Stroud inspired by nature and her surroundings. Her work is fun, decorative and influenced by her love of pattern. During the day she will help you create a design, or choose one of hers and transfer it to Lino. We will then learn how to use the tools to cut away and then progress to inking the blocks and transferring them to paper and fabric.

You will leave with your designs on a high quality tea towel, fabric bag and five gift cards as well as knowledge and inspiration from Lizzie's afternoon session to further your new skill.

The day lasts from 9.30am to 3.15pm with a two course lunch and time for tea, coffee and homemade cakes.

The cost is £85 which includes all materials for the day.

We also run furniture painting, lampshade making, planting design and Christmas wreath making.
